

Case Study

We have been managing issues with Tree Preservation Orders (TPO) and Conservation Areas for over 15 years. If you have a TPO or Conservation Area issue we can help.

New TPO?

If you have been served with a new TPO you have 28 days to register an objection. Contact us now with a copy of the TPO.

Existing TPO?

Many of the TPO's we see are technically invalid in legal terms. Furthermore our knowledge often unlocks land or identifies issues that can move discussions forward.

Applications?

We can compile and manage your TPO applications through the planning portal and we can maximise the chances of a successful application.

Did You Know?

An Area TPO protects only the trees there the day it was made. Some were made as long ago as 1947. You may think trees are protected which we can show are not.

“1st class advice and a smooth application process,
many thanks”
